October 30, 1964

Mr. Maurice W. Nittler  
4590 So. Julian  
Englewood, Colorado

Dear Mr. Nittler:

Thank you very much for your letter concerning reception of our station signal on October 23, 1964. According to our program log, the report you made is correct, and it is with pleasure that I confirm your reception.

It was sort of surprising to get your letter concerning this particular broadcast, since we are now receiving many letters concerning our special proof of performance broadcast held October 25, 1964, from 0100 to 0200 MST, as advertised in your IRCA bulletin. So, to get a letter about another broadcast is quite a change.

KVEL radio is a 5000 watt, daytime station, affiliated with the Intermountain Network.

By the way, I have just heard from DeWayne E. Bruce, of Denver, also of the IRCA, stating that our morning test broadcast was completely blanked out in your area by WREN, who had been off the air at that time for the past 6 weeks.

Again thank you for your letter, and I am enclosing a special dinosaur hunting license which I hope will be of value to you if you are ever in this area. Be sure to drop by the studios, if you do visit our land.

Sincerely

*Edward R. Gries*
