Dear Mr. Nittler,

In response to your request for a letter of verification regarding the 1490 Khz signal you heard on March 14, 1994, I Russell East Station Manager of that station confirms what you heard at that time. KJOE was purchased by the Bible Broadcasting Network about three months ago. The format is now very conservative Christian music and teaching. This station is both AM and FM we just don't have the AM on our letter head because we are in the process of selling the AM signal. Thanks for writing, sorry for the delay.

In Christ,

Russell East
Station Manager- KYFO AM and FM
