Dear Mr. Nitter,

This letter is to confirm your reception of radio station KFLD 870 am, on December 28, 1995.

The times and entree's you have sent to KFLD have been verified by John Clement and Terry Wright, both employees of KFLD.

We recently changed the format and former call letters of KORD am, to the new sports format you were able to listen to. Unfortunately, because of the "newness" I have no memorabilia displaying our new logo to you.

KFLD operates non directional, at 10,000 watts day and 250 watts night. I must say for 250 watts night, the station gets out in about a 25 mile radius.

I wish you luck in your future receptions my friend.

Respectfully,

A handwritten signature in black ink, appearing to read 'Ronald S. Sweatte', is written over a horizontal line.
