Mr. Nittler:

Howdy Sir! You definitely did catch us on the air. Everything you described coincides nicely with what we were airing. The only change would be the "Grange Supply" instead of "Range"...although "Range Supply" has a nice ring to it!

KMAX has only been on the air for a little over a year. It is the fourth station that we have added to our little broadcast family. I hope that you can continue to listen when the weather permits...I apologize, I don't have a bumper sticker to pass along to you for KMAX, we are working on getting those together and out for our listeners soon!

Have a great day and thanks for listening!

Sincerely,

Dennison Bird, Pd.
