Mr. Bill Nittler
Box 824
Mancos, Colorado 81328

Dear Bill:

Good Morning and Choice Christian Greetings.

From your nice letter which was awaiting my return from an extended business trip, you were indeed listening to **The Bible Institute of the west**.

Your letter was not dated, but my guess is that KTBI might have signed off at 4:30pm Pacific that month. That would explain why you heard nothing following the fade at 4:30pm.

I have never heard of XERSV in Mexaco on 810. Where are they located and with what power do they operate, if you know.

Have you picked up KTBI since. How do we come in during the early morning hours. This month we sign on at 6:15am, April 6:00am. Sign off is 6pm.

Do you ever pick up KGO under us in Colorado? They have a rather sharp directional so I don't think they go very far east. KTBI is non directional. We transmit with 10,000 watts currently with the prayer that it will soon be 50,000.

Please keep tuning in and giving me a report. We have listeners in a wide area for about the first hour in the morning and during the final hour at night.

Warmest personal regards in His service,

81 EAST - KTBI MINISTRY

Thomas Wilmot Read
