Hwy. 33 and Northwoods Road
Port Washington, Wisconsin 53074

April 5, 1969

Dear DXer:

We are pleased to issue you this confirmation of reception of our transmitter test the morning of March 29, 1969 at 1:00 to 1:50 A-M, C.S.T.

The information you provided was correct. We are most grateful to you for writing to us. We will make use of all information gathered during this test period for evaluation of our transmitting equipment.

We are a 250 watt daytime station serving east-central Wisconsin. We employ a two tower directional antenna system, which has a dominant electrical lobe radiating to the northeast. Unfortunately, we are unable at this time to provide you with a coverage map.

If we can ever be of further assistance to you, please don't hesitate to contact us. We also appreciate the return postage included with your kind letter.

Yours truly,

William P. Bro
