Dear Sir:

Thank you for your reception report of October 26, 1959.

WISC was testing a new 5 kw Collins 21E transmitter and adjusting a new two tower directional antenna system.

There is no longer a WISC radio, as the facilities were sold as of November 1, 1959, and the station is now WISM (and WISM-FM) with studios and offices at 122 East Main Street, Madison Wis.

Yours truly,

G. R. Batz
Trans. Supervisor
WISM & WISM-FM
