

MENOMONIE, WISCONSIN

May 15, 1955

NRC DX-er Maurice W. Nittler  
Geneva, Nebraska

Dear Maurice,

Received your letter just about a month ago now so this is rather tardy. However I guess DX-ing is a year around report so I'll take this opportunity to add one more to that 533 you have logged.

You mentioned that your typewriter was out on loan. This one should be at the repairmans because the ribbon is giving me trouble. Of course it still beats my writing by hand so thats why I'm sticking with it.

At the time of test we were having a little trouble with the Limiter but seem to have it cleared up now,

Menomonie is in West Central, Wisconsin and there is some very fine fishing to be done around and just to the North of here. Yesterday was the opening of the Northern Pike and Walleye season for Northern Wisconsin. The day was very sunny and so I naturally ended up with a nice sun burn. However we are 4 fish to the good so dont feel too badly about it. Just kind of miserable.

Thanks for the report. I always enjoy hereing ~~for~~ from DXers and have quite a number of letters now. Most of them from National Radio Club Members.

Best of Everything,

*Everette Lindgren*
