FAYETTE ASSOCIATES, INC., OPERATING

AFFILIATE OF MUTUAL BROADCASTING SYSTEM

RADIO STATION

WMON

**MONTGOMERY
WEST VIRGINIA**

20 January, 1955.

Mr. Maurice W. Nittler,
Box 94,
Geneva, Nebraska.

Dear Sir:

This will acknowledge your report of reception of WMON on the morning of the 17th, during our frequency check transmission.

I am glad to say that your report checks with the log of transmission on the above date, so therefore we can verify your reception of WMON on this occasion. We also received a report from Omaha on this transmission.

We are located 27 miles east of Charleston, the state capital, and have the usual 250 watt local station set-up, using Collins, Raytheon, RCA & General Radio Equipment. Neither the location nor the installation is anything special, in fact our location is considered rather poor, but we do get out well at times on these tests.

Your report is appreciated very much.

Very truly yours,

J.C. Craver

J.C. Craver, Chief Engineer.
