Dear Sir:

Our owner and Chief Engineer, Mr. William D. Stone, has requested that I answer all the DX letters and cards that we have received as a result of our equipment test transmission for this new station.

Your report of reception of our station on November 4th between 3:12 and 3:23 a.m., EST, is appreciated.

I have just begun the task of replying to all the DX cards and letters, but so far it appears that a letter from Canada, one from South Carolina, one from Iowa, and yours from Colorado represent the farthestest distances away that we have been received.

Sincerely,

Theodore W. Wolfe
Program Director
