Dear Sir;

This letter is to verify your pick up of our station, the morning of 2/25/57.

Your description of our closing format for the day, fits in every respect...our sign off is scheduled at 1:05 a.m. MST, preceded by five minutes of new and the sign off theme "Until Sunrise", etc., just as you described it.

Its nice to know that we can reach out, occasionally, on our very limited output. Each time a letter such as yours reaches our studios it becomes a topic of conversation for days--we always feel as if we have made a new friend. As a matter of fact, you radio bugs have interested a couple members of our staff in ham radion and now we can't stop them from talking about it.

Thanks for the letter and thanks for listening---drop a line again sometime.

Sincerely,

Tom Brennan
Tom Brennan, D. J.
