Dear Bill:

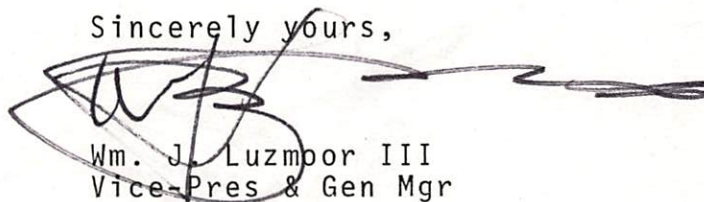

Good to hear from you and that you're getting us (at least on one occasion) in McCook. This will confirm your reception of KRKK as received on February 11, 1977 at 1360 khz.

We've had a number of letters over the past couple of years we've had the station from southern California, but to my knowledge this is the first time to my knowledge that we've heard from anyone in Nebraska.

You might be interested to know that we have a new 100,000 watt stereo FM on the air 1680 HAT at 96.5 and recently hear from someone in Colby, Kansas who had picked us up on a regular receiver.

Thanks for contacting us and good listening....

Sincerely yours,
