Dear Bill,

KMER
P.O. Box 432
Kemmerer, WY 83101
(307) 877-4422

I am sorry we had not contacted you with DX verification at your first writing. For some reason, none of us saw it. Nevertheless, I am more than willing to verify your reception on January 23rd, 1987 as listed, with weather and road programming as you described. Our weather man, Tom Dunham was pleased you could receive his forecast, even if only for just the introduction.

KPOW/KLZY-FM
P.O. Box 968
Powell, WY 82435
(307) 754-2251

As you may have noticed, we are a part of a group of stations in Wyoming, and no doubt you have heard the others. If not, KMER is 950 KHz, KPOW is 1260 KHz, and KLZY-FM is 92.5 MHz.

I could not ignore your request for verification, since the Aztec station would surely block us out from here on.

Best regards,

David B. Macfarlane
Chief Operator, KSGT
