Maurice W. Nittler
2818 So. Cherokee,
Englewood, Colo.

Dear Mr. Nittler:

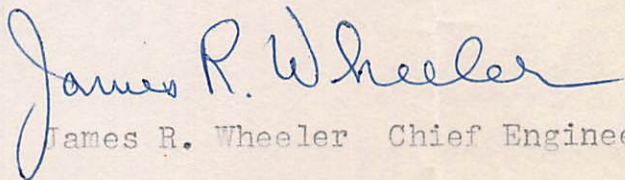

In reply to your letter of Aug. 21, this was probably the station you heard. Each third Thursday of every month we hold a frequency test and we were on the air for that purpose at the time you mention.

Our monitoring station is at Kansas City, Mo. and we have received confirmation and a report from them with time noted at 2:09 CST.

KWIV operates at a power of 250 watts on 1050 and has been in operation since June 22, 1957. We have listeners reports from Minnesota, eastern Kansas and several reports from Colorado.

Thanks for your report and interest and nice report from Englewood.

Yours Truly

James R. Wheeler Chief Engineer KWIV
Box 114, Douglas, Wyo.
