Dear Mr Nittler,

Thank you for your logging of 1YC for 12.2.62. A card is enclosed confirming your reception. Besides your comments on reception of New Zealand stations, we found your description of Denver and its weather most interesting. At the moment the temperatures here are in the 70s and 80s, so we were intrigued to read that you've had below zero, but "it has been mild since". Just how mild we wonder?

With best wishes,

Yours faithfully,
