**Dear Mr. Nittler:**

**Thank you for your reception report of KCSN. Your report states that you received 26 Southern California stations during this sporadic 'E' layer opening; at 52 watts ERP, it's unlikely any were lower powered than KCSN!**

**I've checked our program log, and can confirm your reception.**

**DATE: 7/5/1995  
TIME: 1800 PDST  
FREQ: 88.50 MHz**

**Best Wishes, and thanks for "listening."**

**Sincerely,**

A handwritten signature in black ink, appearing to read "Mike Worrall". The signature is fluid and cursive, with the first name "Mike" and last name "Worrall" clearly distinguishable.

**Mike Worrall  
Chief Engineer, KCSN**
