6255 SUNSET BOULEVARD—LOS ANGELES, CALIFORNIA 90028—(213) 466-8381

January 29, 1979

Mr. Bill Nittler  
603 W. First Street  
McCook, Nebraska 69001

Dear Bill,

Thank you for your letter postmarked January 26th reporting reception of KIIS-FM in McCook. I was very surprised to read that you had received our station in southwest Nebraska.

KIIS-FM broadcasts from Mount Wilson, just North of Pasadena. We use 8,000 watts of effective radiated power, at a height of about 6,000 feet.

I have checked your commercial listing against the program log and find that they match. Therefore, I am happy to verify your reception report.

Thank you for your interest in our station, Bill. If you find yourself in Los Angeles please stop and visit us. It would be a pleasure to meet you and learn more about your fascinating hobby.

Best Regards, Bill...

Michael D. Callaghan WA6KPD  
Chief Engineer KIIS AM/FM

10/26/95

Dear Bill,

Thanks for  
listening!

Gloria

I verify your reception!

P.S. Enclosed are some  
of our new Superstickers.
