

July 30, 1980

Dear Bill,

HELLO OOOOOOO OUT THERE!

Glad you could receive us out in Colorado, even though our signal only lasted for a few minutes.

We broadcast with 12,500 watts of power at an antenna height of 860 feet above sea level. We go as far North as San Francisco and as far South as Monterey with our normal broadcast signal.

If you ever get to listen late at night (10-1 P.M., your time), you'll hear Dennis Erectus, our most famous (or infamous) DJ.

Thank you for writing and let me know if and when you hear from us again!

I am including a few KOME decals for our new listeners in Naturita.

As we tell our listeners, stay hard on KOME!

Sincerely,

A handwritten signature in blue ink that reads "Loren Charles".
