

Dear Mr. Nittler:

Thank you for your letter regarding picking up KSLG all the way our your way. FM generally doesn't skip like AM does, but under the right conditions it can. I was once working in San Diego and got a call from a woman in Minnesota who was picking it up in stereo.

It looks like the information that you picked up indeed was broadcast on KSLG. I can confirm that you were monitoring KSLG. Congratulations. And thank you again for the letter.
