Bill Nittler  
603 W. 1st  
McCook, Nebraska 69001

Dear Bill,

Thanks for your letter confirming reception of our signal. I find it interesting that our 1300 watt station is getting out to Nebraska. However, we do have something called the Flatirons in the foothills which acts as a large passive reflector. No doubt this may have something to do with some Colorado stations getting out into the plains.

Please find enclosed a copy of our July program guide for your interest.

Sincerely,

A handwritten signature in blue ink that reads "Glen Gerberg".

Glen Gerberg  
General Manager
