Mr. Bill Nittler
Box 824
Mancos, Colorado 81328

Mr. Nittler:

It was a pleasure to receive your letter. Yes, indeed, it was our FM station that you picked up. Not only are we the only FM station assigned to 95.3 in Colorado, but at the time you were listening, we were in fact playing the Jones Jewelers commercial.

We upgraded our power to 6000 watts last May. Since then, it has been incredible as to where people have been able to pick up our signal. We come in strong in the Westcliffe area, in the towns of Coaldale and Howard along Highway 50, and in certain places in Salida. So I know our signal is strong towards the east.

This is, however, the first time that I hear from anyone towards the west. So thank you for acknowledging that our signal does occasionally "bounce" in towards the west. I have included some station "trinkets" in appreciation for your letter.

Sincerely,

Gerald M. Vigil
General Manager
