Mr. Bill Nittler  
603 W. 1st  
McCook, Nebraska 69001

11/15/78

Dear Mr. Nittler:

Sorry it took so long to confirm your reception report of June 24th on our FM station. I just came back in after about an absence of a year and found your letter in our AM control room.

Your report is accurate, and we wish to thank you for the DX confirmation.

Our FM is 100,000 watts, with the tower located between Greeley, Colorado and Cheyenne, Wyoming, just off Highway 85 in Pierce, Colorado.

By the look of your report, the weather was just right to get everybody that day.

Again, thanks for the report.

Yours truly,

Quin Morrison  
Operations Manager
