Mr. Bill Nittler
Box 824
Mancos, CO 81328

31 August, 1994

Dear Mr Nittler:

Thanks for your recent letter. You're right! You had us at 105.7 on the FM. We broadcast at 100,000 watts and our tower is located in Hasty, about 20 miles outside our studios in Lamar.

You may have heard either a message seeking part-time announcers or one seeking a salesperson.

I too, am amazed that we made it over the mountains. Although we have pretty good signal coverage into the east, and our signal was once picked up outside Amarillo, Texas, yours is the first letter that far from the west that has come to my attention.

Thanks for your interest.

Sincerely,

Russ Baldwin
Program Director
