Dear Mr. Nittler:

Thank you for your letter and your observations of our station from May 11, 1980.

We can confirm that you did indeed pick us up via "skip" reception that evening. Your information was very clear and concise, while the times are the same due to the fact that Colorado and Saskatchewan are on the same time.

We rarely get freak reception reports from Colorado, with most viewing being done in Utah, Montana, Idaho and Arizona.

Again, thank you for your letter and I am taking the liberty of returning your 25¢.

We were pleased to hear from you and the best of luck in your endeavours.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Wm. Stevenson', is written over the typed name.

Wm. Stevenson,
Director of Programming.
