

January 22, 1997

Mr. Bill Nittler  
Box 824  
Mancos, CO  
87328

Dear Mr. Nittler:

Thank you for your Reception Report of July 7, 1996. I would like to confirm this report as being correct.

CKIK operates on a frequency of 107.3 MHz, with a power of 100,000 watts ERP. The radiation pattern is omni, with the antenna's effective height above average terrain (EHAAT) being 905 feet.

Our transmitter is a Harris model FM 25K which feeds into a ten bay horizontally and vertically polarized antenna.

We appreciate your Reception Report and hope that you may tune us in again at some future date.

Mel Hoyme  
Vice-President, Engineering
