Bill,

Our apologies for our delay in getting this note to you. As a terribly understaffed organization, we have not been as prompt with our correspondence as we would like.

This letter is sent to you in verification of your note to us stating that you had received our signal on June 15, 1995.

It's nice to know we've got listeners a lot further away than we had imagined! Enclosed is a little info about our station.

Good luck with your radio travels.

Sincerely,

**Mick Woolf
Station Manager**
