Dear Bill :

We at WSIE were very excited to hear that you could receive our station in Colorado. While we occasionally get letters such as this, it always arouses discussion on how this could happen to a station operating at this frequency. I checked the distance from Mancos to Edwardsville on our computer atlas. It calculated it to be 1001 miles.

You are correct in the program content listed in your letter. I have enclosed a copy of our program log which shows that the Count Basie Orchestra was scheduled to play at about 7:12 PM on March 19, 1996. Also on this date, we carried the returns of the Illinois State Primary. "You are listening to member supported public radio WSIE" is one of the slogans used on the station. There is no doubt in our minds that you were, in fact, listening to WSIE.

Good luck to you, and keep DXing!

Sincerely,
