Kansas State Network
Radio Station KARD-FM
Box 333
Wichita, KS 67201

Dear Radio Friends:

Attached is a reception report for KARD-FM for tonights' schedule.

I have previously sent your station 2 reception reports for the FM station which have gone unanswered. I realize that you are running a busy business but would appreciate it if you could take a brief minute to send me a verification of reception on your letterhead or coverage map.

Also enclosing a copy of verification of reception received for KARD-TV way back in 1957 for reception when I lived in Geneva, Nebr., about 180 miles east of here.

Needless to say, we are in your prime coverage area for your affiliate station, KOMC, and are frequent viewers.

Thank you for your assistance.

Sincerely,

Bill Nittler

*Bill,
Sorry the answer took so long!
The description you sent was
indeed KARD-FM. Enclosed
is our coverage map you
requested.*
