Dear Brother Nittler ,

It was so good to hear from you. Thank you for your reception report! We deeply appreciated your willingness to help us know about our coverage as to how far we are reaching out. We are enclosing our QSL card, our Program Guide, and our brochure, that tells more about WJCR.

We have had a great deal of response since we went on the air in March of 1992. Currently we are broadcasting on 7.490 targeted to Europe and 13.595 targeted to Mainland China (12 hours daily is in the Chinese-Mandarin language).

Previously we used 13.595 targeted to South America. Very soon we will be adding a new frequency, 5.920, that will go into South America. Reception reports have come in from all over the world. In fact, to date we have responses from 148 countries from as far as New Zealand, Australia, South Africa, Japan, South American countries, countries in Asia and from all over Europe.

We are a non-profit corporation that is listener-supported. We operate WJCR Shortwave with programming similar to our 100,000 watt FM station (WJCR 90.1 FM). The Shortwave stations are located on the same property as our FM station, which is located in a rural area nine miles out of Upton, Kentucky. Our programming is basically Southern Gospel Music with some Christian teaching programs.

Please feel free to call or write anytime....especially, if you are in need of prayer for any situation. Our Prayer Line is open 24 hours a day, seven days a week.

Again, thanks for the report....you are an encouragement to us!

Sincerely,

Don Powell, Romans 8:32
