Dear Bill,

Thanks for your note of June 21st. Yes, you did have "94-KTG" if you heard a spot for Edwards Storage Buildings, the Health-Nut Hut, and a Cincinnati versus Chicago baseball game.

It's always interesting to know how far our signal can travel...even if it is only a "freak" situation.

Sincerely,

A handwritten signature in black ink that reads "Bob Mays". The signature is written in a cursive, slightly slanted style.
