Dear Bill:

I am sorry that your correspondence was not received or answered the first time you requested it, however, I am glad to respond to your second request.

First of all, just to let you know at the time of your reception we were WHIC AM and WULF-FM. WHIC-AM has went dark. WULF-FM is not in Radcliff, KY and going strong as a 50,000 WATT country station.

I do not have music logs or commercial logs in the office that go back to the time period to confirm your reception, however, we do have a Kelly Dixon, air personality and we also do advertise the company's that you name in your reception report.

We appreciate you letting us know that you heard us and hope that this will serve as a confirmation.

Enjoy your hobby and your continued success getting responses.

Sincerely,

Cheryl A. Dyer
