November 29, 1994

Mr. Bill Nittler
Box 824
Mancos, CO 81328

Dear Mr. Nittler:

Thank you for your letter indicating you had received our FM signal up there on November 20, 1994 during a period of sporadic skips. How very interesting! Having grown up on AM radio, I was very familiar with AM skips but not so much with FM skips. Our engineer found your letter most informative and enlightened me on the particular phenomena of FM skips.

We operate two stations in Winnfield. Our AM station is 1000 watts daytime and about 25 watts nighttime. Our FM station has 6000 watts ERP 24 hours a day. The antenna is 284 HAAT.

Please do come by and see us when you are in Louisiana next time. Again, thank you for your kindness in writing us.

Sincerely,

George B. Harrison
