McCook, NE 69001

Dear Mr. Nittler:

I have to apologize for the delay in answering your fine listener DX report. After going back and checking our program logs, your reception report is complete and accurate. I am very happy to confirm your report.

KS-95 (KSTP-FM) operates with 2 RCA 20kw transmitters in parallel with an E.R.P. (effective radiated power) of 95kw horizontal and vertical polarizations, with 2 degree beam tilt and null fill on our antennas, at a height of 1200 feet.

Again thanks for your report.

Sincerely yours,

A handwritten signature in blue ink that reads 'Neil Swanson'. The signature is fluid and cursive, with the first name 'Neil' being particularly prominent.
