Hi Bill!

Happy to hear you've heard Stereo 98!

Thought you might like some information about us.

Stereo 98 broadcasts 24 hours a day, seven days a week. We use a Sparta FM transmitter; output is 21 kw into a 10-bay circularly polarized antenna mounted 440 feet above average terrain. The effective radiated power is 100 kw.

Our transmitter site is 3 miles east of Rice, Minnesota, or about 15 miles north of our studios here in St. Cloud. The programming is carried from studios to transmitter via Moseley STL.

We enjoyed hearing from you, and continued good Dx!

Jim Christie
Program Director
