Good morning Bill,

Sorry about not answering soon er...I'm not sure who your first letter was directed to, but anyway.

In reading your program details I know very definitely yo u were listening to our station.

Since your reception of KSFT, we have changed formats. We now are live 24 hours with an album rock format. When you heard us we featured a Drake-Chenault soft rock style. We're all very excited about our new sound...and by the way, within the next few months we will be increasing power to 100,000 watts.

Thanks for sharing your hobby with us.

The Real
