

Mr. Bill Nittler  
Box 824  
Mancos, CO 81328

Mr. Nittler;

This is to confirm that it was indeed Q-106 (KQDI-FM, Great Falls, MT) that you were monitoring on June 27.

Wow... that's a whale of a skip for an FM signal. We get confirmation requests all the time for our AM stations, but this is the first I've received for one of the FMs. Is this a common thing? Or does your Taurus car radio possess powers that Ford just isn't telling us about?

Sincerely;

Dave France  
Operations Manager  
Fisher Radio Regional Group-Great Falls
