December 6, 1977

Mr. Bill Nittler
603 W. 1st
McCook, NE 69001

Dear Mr. Nittler:

Please forgive our slow response to your letter of August 26, 1977. I found it today where it had become "lost" in a box full of future projects. Sorry about the delay.

This will confirm your report of reception of KNEB-FM (94.1 MHz) 9:05 A.M., MDT, to 9:30 A.M., MDT, on August 26, 1977. The information you logged is substantially correct.

Although our ERP is only 6.6 kw, we have been heard in many states, including Ohio, West Virginia and Washington among the more distant. Skip conditions do bring some unexpected responses.

Thank you for your letter.

Sincerely,

KNEB-FM 

Les Proctor
