Mr. Bill Nittler  
P. O. Box 824  
Mancos, CO 81328

Mr. Bill Nittler:

THANKS, for your recent reception report for KFMQ, Gallup's new Q-106, all seventy's all the time. Its great to know you have listeners in distant places!

Your reception report is accurate and hereby verified.

A little about us, the KFMQ transmitter is 2 miles south of Gallup, at a height of only 160 feet above average terrain, approximately 145 miles from you! KFMQ operates an older Gates FMH3 10 Kilowatt transmitter, with approximately 8 KW output into an 6 bay antenna on a two hundred foot tower. The output is 26 thousand watts effective radiated power.

Thanks again for your interest and tell a friend about our exiting new format!

Best Regards

Thomas C. Troland  
President and General Manager
