Bill,

Thank you for your follow-up message regarding your reception of KRWQ-FM, and KIFS-FM (KISS 107FM), in Medford, OR. The original letter never made it to my desk so I could confirm your reception. Please know that we try to reply to everyone who sends us letters such as these, and you were not being ignored intentionally.

Radio waves never cease to amaze me, as this is the first time we have heard from someone regarding any of our FM signals, (we have four of them), outside a 150 mile radius! Yours is truly a first, since I have been here in my nearly 14 years! Usually, we get letters from foreign countries about or AM station KMED.

Thank you for your patience. Enclosed is a bumper sticker from each of the two stations you heard, so you have something to keep with your records as well as this letter.

Enjoy, and keep DXing!

Sincerely,

Bryce Burtner  
Director of IT  
Clear Channel Communications – Medford, OR
