

93.3  **FM**
THE POSSUM

Mr. Bill Nittler:

9-24-98

This card is in response to your letter and reception report sent to our radio station. I apologize for the previous lack of response and hope to provide you with some useful information.

I can verify that WPZM has a frequency of 93.3 MHz, our tower is in Tullahoma, TN, and we serve the "Tennessee Valley" listening area to include northern Alabama and southern middle Tennessee. Ours is a Country music format and our 'phrase that pays' is "I hit the possum" which you included in your reception report.

Good luck to you in your longstanding hobby!

Deborah O.
