Radio Station KUER
103 Kingsbury Hall
Univeristy of Utah
Salt Lake City, UT 84112

Dear Radio Friends;

I have been listening to KUER in our area on approximately 90.5 which must be a translator for Southwest Utah. To this point, I had not been able to log an FM station out of Utah so would appreciate some information from you.

Where is this translator located? and at what power?

Also, would appreciate your verification of my rception of your translator per the following logging of broadcast material:

- 7:20 A.M. MDT June 20, 1990
- Top News Stories from NPR with a feature on Romania
- 7:28 musical interlude
- 7:29 gave time and advertised "All Things Considered" from 4-7 daily on KUER. Spot for AARP Driver Course with phone # given as 581-6625. Said there would be a report on soccer after the news.
- Announcement "57 degrees. This is KUER FM 90" with NPR Morning Edition of News following.

Sounds like KUER -

Mancos is located in a va Southwest Colorado at the

Will be looking forward t to you in your future bro

Sincerely,

Bill Nittler
