Dear Bill,

I am writing in response to your letter regarding reception of our station on June 8, 1995. It is quite amazing that the signal made it's way to Colorado!

I don't have a specific record of the community calendar event that you heard, but it definitely looks like it was originated from our station. Our signal covers the Menominee, Michigan area quite well. Our main transmitter is located in Sturgeon Bay, Wisconsin. We are on the Door County Peninsula which separates Lake Michigan from the waters of Green Bay. We also have translator stations in Iron Mountain Michigan and Sheboygan Wisconsin. We are currently building many more translators around the area.

Thank you for sending your report of reception. I enjoy hearing from people who hear us outside of our normal coverage area.

Sincerely,

Arnie Clawson, General Manager  
Family Educational Broadcast Corp.

**WARNING:** Exposure to 90.5 FM has been determined to change people's lives.
