

This card is one of a set of five cards created by Mr. Freddy Nain Orantes, an artist and AWR listener living in El Salvador. He originally created this drawing for one of the announcers or producers of his favorite program, Panorama Internacional. This program is one of the most popular programs produced by AWR-PanAmerica.

Orantes, a representative of art and culture for Usulután, reports he painted the picture using very fine brushes and the tips of his fingers.

TO: Bill Nittler
