

QSL

This is not just a card with flowers!
This is a computer-generated card with a hidden design – if you focus your eyes just right, you'll see "AWR"! Close your eyes, and hold the card close to your face. Open your eyes and slowly move the card away, focusing your eyes 'through and beyond' the card. Life has hidden surprises for us – some are pleasant, some are not. Adventist World Radio strives to present hope-filled programs to help you learn how to cope with sorrow and disappointment and how to look forward to the future.

AWR QSL #2, 1997

designed by Siegfried Wittwer

AWR Adventist World Radio®
