### "Mok-woo-jon"

This is one of the most representative traditional folk games of Korea, originating from Youngsan, South Kyung-sang Province. Villagers, mostly farmers, divided into two groups, the east and west teams, engage in this annual folk festival activity to pray for a bumper harvest. Performed with intense vigor and vitality, this traditional tug-of-war is truly a game from which we can experience the high spirits of Koreans in rural towns.

Courtesy of Mr. Kim Young-whan, renowned folklore photographer of Korea
