Dear Mr. Nittler:

Please accept our sincere thanks for your letter reporting picking up Channel 2 on June 28. We are surely glad to receive such letters, and you may be interested to know that we received several other similiar communications from your area.

As you may know, long-range reception of this kind must necessarily be classed as something of a "freak" nature and in no way comprises a normal part of our receiving area.

We trust that should you ever pick us up again, you will let us know.

Cordially,

George L. Moskovic
