

KCRI-TV
CHANNEL 9
CEDAR RAPIDS, IOWA

3 June 1954

Maurice W. Nittler
Geneva,
Nebraska

Dear Sir:

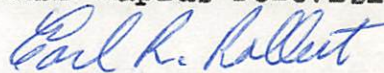

Thank you for your report of reception of KCRI-TV.

This will confirm your reception of our test pattern between the hours of 1130 and 1200 on 1 June 1954.

I might that I was surprised to get your report since the distance of Geneva is considerably outside our coverage area and inside what "short skip" conditions might exist on the frequencies covered by Channel 9.
