Dear Mr. Nittler:

Thank you very much for your Letter calling attention to reception of our signal on June 25, 1955.

Occasionally, as you know, atmospheric conditions make freak circumstances and stations will "skip" a considerable distance and be picked up. On June 25th Channel 2 was received in Quincy, Illinois, Manitoba, Canada and in Geneva, Nebraska. We received letters from these aforementioned states acknowledging the "skip". Also, your breakdown of the programs and commercials was very accurate.

For your information, we are assigned to Channel 2, have an effective radiated power of: Video 12,200 watts; Audio 6,300 watts. Should you have occasion to capture our signal again, we would appreciate hearing from you once more.

Sincerely,

Bob Gardner
General Manager
