WESTINGHOUSE RADIO STATIONS Inc  
ARCHITECTS BUILDING • PHILADELPHIA 3, PA.

June 16, 1954

Mr. Maurice W. Nittler  
Geneva  
Nebraska

Dear Mr. Nittler:

Thank you for advising us that you receive our program in Geneva, Nebraska. Apparently propagation conditions are at times very favorable inasmuch as we occasionally receive reports such as yours from New York, Massachusetts, Wisconsin, Iowa, Mississippi, Texas, Florida, etc. However, reception at those distances is not normal and under freak conditions.

As you may know, by F.C.C. definition, our coverage area does not extend past the 220 microvolt contour which currently extends approximately 65 miles in all directions from our transmitter in Wyndmoor, Pennsylvania.

Again, thank you for your communication.

Very truly yours,

  
R. J. BOWLEY  
Chief Engineer
