Dear Mr. Wittler:

Thank you for your letter of June 12th regarding the reception of Canada's First Privately Owned Television Station. The information you supplied us is correct. Apparently, freak conditions prevailed on this night for we received letters from various places in the States, especially in the southern and western areas.

We have pleasure in confirming your reception of our Elna Sewing Machine program and Robert Brown Jeweller's commercials on the polaroid cameras. Good luck in your DX efforts!

Yours very truly,

CKSO-TV
